Your generosity empowers Friends Center's mission: educate children, empower families, inspire teachers, engage community, embrace diversity. Maintaining this mission during these challenging times is more important than ever, as we know that high-quality early care is truly essential for many families to thrive. Children, parents and teachers are all impacted by your gifts.

"We joined the Friends Center For Children in Fall, 2019 and this has been an extraordinarily valuable transition for our son. He is excited to see his friends every morning, and we value the professional commitment of his teachers in this time of uncertainty and risk. We have all shared in the sacrifice brought on by COVID-19 in different ways — despite the challenges FCFC's commitment to the teachers and children has been evident. We are lucky to be part of this community and look forward to several more years here. We will be lifetime supporters!"
